## Competitions and Personal Projects

---

### Netflix UI Clone

- Developed an exact Netflix UI using IMDB API to fetch the movies and the movies trailer
- Url: <https://netflixit.netlify.app>
- Used HML and CSS for the markup and styling
- It was a bit challenging, but I scaled through.

### Food Searcher

- A simple website that uses API to return a user food search
- URL: <https://feedmemore.netlify.app>

### Logistics website UI

(July 2021)

- A demo logistic UI
- Fully responsive to all screen sizes.
- URL: <https://reverent-cori-1ebbc7.netlify.app>

### Personal Online Portfolio

(November 2021)

- Currently Designing my personal portfolio where I can showcase all my works and project, but it's yet to be completed still have a peep at it (URL: <https://emmafolio.netlify.app>)
